My Letter to NDP Leader Jagmeet Singh ...

Today, like everyday, I have a WICKED pain in my head and little relief with afford-ability of these #substances being next to impossible without having someone help me financially...

My partner Gary Lynch and my family have been a HUGE part in why I am still here according to #MedicalProfessionals who have treated me, themselves having given up on me decades ago telling my family and my partner that they would be "spoon-feeding me in a #NursingHome by the time I was 40 years old - IF - I was still here". Without me fighting to find answers for my health and my family and Gary ALWAYS there, I really do not know where I would be today.

People are dying across #Canada without the RIGHT to consume something that is not only the LEAST #addictive substance know to #Medicine with the fewest side effects AND makes us FEEL BETTER - but also make us #Smile What is wrong with this picture?

I ran for the NDP in #Oakville, Ontario in 2004 and more than doubled the votes with me being the first person in the World to run my #Federal #Campaign with #cannabis on my Platform... I - like you - will NEVER give up! I KNOW that this would be best, to again #Legalize and #Regulate #ALLDrugs so that people like me in #Canada have CHOICE and #Canadians no longer suffer in silence.

Thank you for taking the time to read this Jagmeet my friend, I know we can do this for our Country and the people who are suffering who need it most.
#TOGETHERWeWILL

Respectfully,
